

# Hillary Clinton has a *real* plan to rebuild our infrastructure.

**Hillary has a detailed, \$500 billion plan to invest in rebuilding America,** and she will do it right. That means using highly trained union workers who earn a good wage and benefits. Under her plan, we will repair and replace outdated roads, bridges, schools, ports, airports, water systems, and invest in a smart grid and 21st century energy infrastructure.

**Hillary will protect Project Labor Agreements.** Hillary is committed to project labor agreements that promote skilled union workers who can deliver safe, quality projects on time and under budget. Project Labor Agreements are also a means to recruit and train workers and provide a pathway to the middle class and a construction career.

**Hillary will protect Prevailing Wage Laws.** Hillary Clinton has said, "I will protect the prevailing wage standards and project labor agreements that make construction careers middle-class careers." And Hillary will create middle class jobs by protecting prevailing wage laws and project labor agreements that mean union jobs and good wages.

# Donald Trump has ...nothing.

**Donald Trump's economic plan includes cutting taxes for corporations and billionaires** like himself, which will increase the national debt by trillions of dollars.

**Trump has stiffed hundreds of small businesses, contractors, and workers** that did business for him – painters, waiters, plumbers, carpenters, and others – and never got paid what they were owed.

In hundreds of government filings, including liens, judgments, and at least 60 lawsuits, Donald **Trump and his businesses have been accused of failing to pay workers for the work they did.** Trump says wages are too high.

✓ **ECONOMIC GROWTH** ✗

✓ **PROJECT LABOR AGREEMENTS** ✗

✓ **PREVAILING WAGE** ✗
